

Accessories, Spares and Options

Protect Yourself

At BW Technologies, we know your job is made easier and safer with tools designed to fit your needs. Accessories and options are designed to meet the special requirements of the individual user, providing the flexibility to work safely and comfortably in diverse working environments. For convenience, accessories are compatible with the different detectors (where applicable).

Value ADDED Confined Space Kits

It is essential to have the right tools to ensure safe entry into a confined space. The GasAlertMax and BW Defender confined space kits come complete. Standard Kits come packed in a hard-sided Carrying Case and include:

- The Gas Detector c/w Motorized Pump
- 10 ft. (3 m) sampling hose
- Calibration gas, regulator and cal hose
- Black & Decker 2-port charger and 2 Versapak™ Batteries
- Operators' Manual and Quick Reference Card
- The GasAlertMax Kit also includes a concussion-proof boot

Also available is a BW Defender Kit with Manual Aspirator Pump.

Instrument Carrying Cases

Hands-Free operation with durable carrying cases - even when remote sampling.

Calibration Gases and Equipment

BW Technologies quality test gases are made to the highest accuracy and trace ability to N.I.S.T. standards. A full range of gases are available in Calibration Cylinders. Quad Gas Kits include the gas cylinder, regulator, hose in a carrying case. "Bump" test gas comes with the balloon adaptor.

ORDER INFORMATION A full list of gases are available (Catalog Page 4.2) or contact your local BW Distributor or BW office for type and delivery.

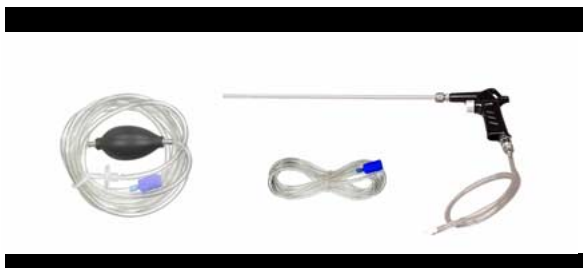

Automatic Test Stations

The full function test stations are a fast, accurate method of testing with gas cost effectively. Response to gas, Speed of Response and audible/visual alarms are tested. *Order gas separately.*
